Crosscheck the tasks with WG GNCH, particularly focus group 2 "Legislation, policies & best practices relating to geographical names" and seek collaboration 2. Define more concrete what's meant by the terms <i>record</i>, <i>store</i>, <i>disseminate</i> and <i>manage</i> in this context (is it mainly office treatment of names as described in Chapter VII in the Manual or is the scope of the subtask broader?) 3. Getting an overview of practices used by reading country reports and division reports 4. Ask selected countries and/or divisions to elaborate their practices, for instance by inviting to virtual meetings/workshops in smaller groups to share experiences 5. Examine and evaluate selected practices more in detail and based on this come up with some recommendations (there is no "one size fit all" in terms of "good" practices, but there are practices that are better than others) 	<p>For 1)</p> <ol style="list-style-type: none"> 1. a) This is a sub-task which is two-folded; need to bridge onomastics and technical issues.

First step is to define the terms, invite the "Task Team" to discuss them and continue from there.

b) and c) There is agreement to schedule a virtual LOD workshop in late 2022 as a starting point [see subtask 1-iii-9](#)

A discussion about how to structure a workshop will be started in autumn 2021: objectives, target group, invited speakers, etc.

One objective of the workshop might be to create "non-technical guidelines"

Progress on 22.09.2022

- Discuss within the next WG GNDM about how to make a survey to collect and compile information --- Ingvil, Jasper
 - Explain and agree on how to proceed

Progress 26.04.2022

Status confirmed. Actions will be linked to [subtask 1-iii-9](#)
